

Buffelen

Impact-Rated Doors...from Buffelen

BEAUTY AND CRAFTSMANSHIP THAT STANDS UP TO JUST ABOUT ANYTHING MAN OR MOTHER NATURE CAN THROW AT IT.

Florida, Texas and Miami/
Dade HVHZ approvals

Fully-rated square, arched
or radiused tops

Glazed or panel
construction

Low E glass options

Multi-point lock systems

Pre-hung in
stain-grade frames

Threshold options

Building a door to withstand hurricane force winds and flying debris is one thing. Building it with the style and craftsmanship Buffelen has become synonymous with for almost 100 years is another thing altogether. Our state-of-the-art CAD design capabilities, CNC manufacturing system and team of expert craftsmen combine to produce impact-rated doors, sidelights, and transoms with the warmth and charm of beautifully designed, custom built, hand assembled joinery.

Whether its square, arched or radius tops, glazed or panel construction, single or double entries, all our doors use premium hardware for ultra-secure, trouble free operation year after year. Multi-point lock systems, heavy duty ball bearing hinges and threshold options that withstand nature's (or anyone else's) assault. Fully laminated, Low E glass options provide complete security while reducing cooling costs.

All impact ratings are in compliance with the 2010 International Building Code. All Buffelen impact rated products have been thermally tested to be in compliance with the 2010 Energy Code.

But, best of all, they're from Buffelen Woodworking. 'One of a kind' is built with the same attention to detail we bring to a full production run. We can build with any species you choose, and every door carries our legacy of nearly 100 years of quality and craftsmanship.

COATING OPTIONS AVAILABLE

Custom-designs built within approvals

Threshold options

BUFFELEN: Building quality doors in the U.S.A. since 1913.

Buffelen Woodworking occupies the same location in Tacoma, Washington where we started in 1913, nearly 100 years ago. Some of the original buildings are still in use, and all of the craftsmanship and dedication to quality that's the foundation of our reputation remain.

Today those buildings house a state-of-the-art manufacturing plant capable of producing seven different profiles simultaneously. And every door is built with the kind of precision yesterday's craftsman worked a lifetime to achieve.

Buffelen offers a full range of doors to fit any interior/exterior need in both wood or MDF.
